

CELEBRATING CAREERS IN CONSTRUCTION

Tori Wells

Sales & Small Residential Manager/Brown's Glass

How Did You Get Started In The Skilled Trades?

I never in a million years expected to be a manager in a glass company, but it has been both challenging and enlightening. I wanted to learn and experience new things while taking on new tasks everyday. Working in the glass industry has given me the opportunity to step outside of my comfort zone to reach capabilities I never knew I had.

If You Could Do It All Over Again, Would You Choose The Same Career Path?

Absolutely! I love the unique challenges that the construction industry presents. Being able to overcome difficult hurdles while also being a new mom is very rewarding and pushes me to continue to be even bigger and better everyday.

What Do You Love About Your Career?

My customers and contractors are awesome to work with! I truly enjoy the unique projects they bring to me everyday, while also taking care of the everyday families with home repairs. They give me the confidence that encourages me to continue doing what I do everyday

What's Your Advice For A Young Person Unsure About The Future And A Career Path?

Working in the construction industry can be different than others, but it is also very rewarding to take on projects outside of the "traditional women's scope." Always believe in yourself, you can do anything you set your mind to regardless of the obstacles you may face.
